Description:

Are you wondering how you'll be able to manifest what you ask for using self-hypnosis? By following these basic and essential 5 steps, you will find yourself manifesting whatever you desire using the power of your subconscious mind.

Learn the proper way to think during self-hypnosis. Instead of focusing on what you don't want, it's important to focus on WHAT YOU WOULD LIKE to experience instead, because your subconscious mind says "YES" to whatever idea you focus upon. If you don't want illness, focus on perfect health. If you don't want lack, focus on abundance.
